SCHEDULED CHARTER SERVICE

Private Charters present organizations with a secure way to get personnel to and from necessary destinations. Perhaps the most appealing advantage to our clients is that they are able to manage all aspects of their specific air service needs as it pertains to passengers, departure times and destinations; all on the schedule they necessitate. Exploring the advantages of private charters can be both efficiently and economically beneficial to an organization when **you just have to be there.**

Private charters are fast becoming the new option when air travel is a requirement. PASCAN can offer flight attendants and catering on any of our private charters.

PASCAN presently has a fleet of 28 aircraft including: The ATR-42 (42 seats), Jetstream 32 (16 seats), the King Air (8 seats) and the Pilatus (9 seats).

We recommend assessing your needs and comparing the value of flying privately versus commercially. This air travel analysis is offered at no charge and conducted in cooperation with your organization and the professional PASCAN staff.
